PROFESSIONAL SUMMARY

I'm a Senior Frontend Engineer focused on building thoughtful, user-first web experiences. At SuprNation, I design and develop scalable frontend systems using reactive and functional programming principles to deliver reliable, high-quality products. Previously at ada GmbH, I worked as a Frontend Lead, contributing to product architecture and promoting best practices across the team. I enjoy combining modern technologies with solid engineering principles to build scalable, maintainable applications. I approach challenges with curiosity, clarity and a strong focus on clean code.

EDUCATION

- | | |
|-------------------------|---|
| 15/10/2018 – 30/09/2020 | Master degree in Media Computer Science
Saarland University - Saarbrücken (Germany) |
| 15/10/2015 – 30/09/2018 | Bachelor degree in Information Technology
University of Tirana - Tirana (Albania) |

WORK EXPERIENCE

- | | |
|--|--|
| 15/08/2025 – Present
(Full-time) | Senior Frontend Engineer at SuprNation Ltd – Valletta (Malta) <ul style="list-style-type: none">● Leading frontend delivery for key products with high code quality.● Mentoring frontend engineers through guidance and support.● Coordinating with cross-functional teams to align on product goals. |
| 01/09/2024 – 15/08/2025
(Full-time) | Frontend Lead at ada GmbH – Düsseldorf (Germany) <ul style="list-style-type: none">● Leading frontend delivery for key products with high code quality.● Mentoring frontend engineers through guidance and support.● Coordinating with cross-functional teams to align on product goals. |
| 01/12/2023 – 30/08/2024
(Full-time) | Senior Frontend Engineer at ada GmbH – Düsseldorf (Germany) <ul style="list-style-type: none">● Building performant, reusable UI components with modern Angular.● Improving architecture with RxJS, GraphQL, and state management.● Collaborating closely with design to deliver polished user experiences. |
| 01/10/2020 – 30/11/2023
(Full-time) | Frontend Engineer at VRdirect GmbH – Munich (Germany) <ul style="list-style-type: none">● Engineered modern apps with responsive UI and clean architecture.● Improved frontend quality through unit and e2e test coverage.● Supported the evolution of reusable components and UI architecture. |

01/11/2021 – 15/11/2022 (Part-time)	QA Engineer at Curb Hero RE Management – Los Angeles (California, USA) - Planned, created and managed the overall quality planning strategy. - Developed comprehensive and detailed e2e/unit test suites. - Automated execution and generation of easy-to-understand reports.
01/01/2020 – 30/09/2020 (Full-time)	Master Thesis at Cluster of Excellence, HCI lab – Saarbrücken (Germany) - Designed and implemented physics-based metaphors using users' existing knowledge for more intuitive and natural interactions in VR. - Conducted a user study to validate the raised hypotheses.
01/03/2020 – 30/09/2020 (Part-time)	Software Developer at ZeMA - Saarbrücken (Germany) Developed a VR application to (dis)assemble complex 3D models where employees can practice before using them in the real world.
09/09/2019 – 07/02/2020 (Internship)	Software Developer at DHfPG – Saarbrücken (Germany) - Built a VR tool for fitness trainers with interactive 3D gym scenarios. - Conducted user studies to improve usability and training impact.

BEST PROJECTS

Online Casino at SuprNation (08/2025 – Present)

- *Angular, Typescript, RxJS, NX, Jest, Cypress, GCP, K8s, Jenkins*
- Building scalable frontend systems using reactive and functional programming, driving performance, reliability, and high code quality across complex applications.

Ada Agents at ada GmbH (10/2024 – 08/2025)

- *NextJS, Typescript, Redux, Tailwind CSS, GraphQL, Playwright*
- Built a platform to create and orchestrate AI agents for use cases like lead generation and churn risk reporting, with flexible agent configuration and crew-based execution.

Ada Hub at ada GmbH (12/2023 – 08/2025)

- *Angular, Typescript, RxJS, Tailwind CSS, GraphQL, Jest, Cypress*
- Built a gamified learning platform with progress tracking and achievements, leading frontend development with dynamic state management, responsive UI, and automated testing.

VRdirect Studio at VRdirect GmbH (10/2021 – 11/2023)

- *NX, Angular, Typescript, Angular Material, RxJS, NestJs, CQRS, RestAPI, Cypress*
- Built key UI modules for a desktop authoring platform for virtual tours, leveraging RxJS for reactive state and optimizing performance with lazy loading and OnPush change detection.

VRdirect Viewer at VRdirect GmbH (05/2021 – 03/2022)

- *Nativescript, Angular, Typescript, SCSS, Rest API, Appium*
- Developed a mobile VR content viewer with adaptive UI, offline support, and optimized performance, ensuring smooth interaction and visual consistency across platforms.

CoachXR at DHfPG (09/2019 – 02/2020)

- *Unity3D, C#, Oculus SDK, XR Interaction Toolkit*
- Built a VR fitness coaching tool with lifelike gym scenes, allowing instructors to explore, identify clients needing assistance, and interact with in-VR training assessments.

Smart Mirror at HBK Saar & DFKI (09/2019 – 02/2020)

- *Unity3D, C#, OpenCV, Blender, 3D Printing*
- Developed a Smart Mirror with *HBK Saar* and *DFKI*, using facial recognition and real-time augmentation to simulate hairstyles, colors, beards, and glasses.

VirtuArm at Scheer GmbH (05/2019 – 08/2019)

- *Unity3D, C#, SteamVR, ROS, ROSBridge*
- Collaborated on a university project with Scheer GmbH, enabling real-time remote control of a robotic arm through commands issued in a VR environment.

TECHNICAL SKILLS

• Programming Languages & Frameworks

- **Languages:** Javascript, Typescript, YAML
- **Frontend:** Angular, NextJs, React, RxJs, Redux, Svelte, NativeScript, Ionic
- **Backend:** Node.js, NestJS
- **Styling:** Angular Material, Tailwind CSS, PrimeNg, Bootstrap

• UI/UX, Tooling & Documentation

- **Design:** Figma, Zeplin, Canva, Storybook
- **Dev Tools:** VSCode, Cursor, Jira, Asana, Confluence, SourceTree, Git, Trello
- **Documentation:** Draw.io, UML, Markdown, Latex, Prezi

• Testing & Quality Assurance

- **Frameworks:** Cypress, Appium, Cucumber, Jest, Karma, Mocha, JUnit
- **Tools:** Browserstack

• Infrastructure & Integration

- **API & Data:** REST, GraphQL, MongoDB, PostgreSQL, Postman, Insomnia, Swagger
- **Authentication:** OAuth 2.0, JWT, OpenID Connect, Auth0, Azure Active Directory
- **DevOps:** CI/CD, Azure DevOps, GitHub, Bitbucket, Jenkins, Docker, K8s, GCP

• Software Engineering

- **Patterns:** Functional, Reactive, Imperative, OOP
- **Principles:** Clean Code, SOLID, YAGNI, KISS, DRY, SLAP
- **Methodologies:** SDLC, Agile, Scrum, Waterfall

LINGUISTIC PROFICIENCY

	Listening	Reading	Speaking	Writing
Albanian	Native	Native	Native	Native
English	C1	C1	C1	C1
German	B1	B1	B1	B1
Italian	B1	B1	A2	A2
Spanish	B1	A2	A2	A2
